Internships:

Blueprint Signature Summer Program:

www.bpsummerprograms.com/careers-in-engineering-pre-college-summer-programs

The University of Florida in Gainesville offers a Summer Engineering Course for High School students. Topics covered may include:

System design processes
Nanotechnology/technology
Computer science
Research and envisioning
Architecture design
Innovation
Variety of engineering careers

The best part of this summer engineering course is that it is a hand's on experience. It is a time to make connections with current engineers, relate to peers with similar interest and get excited about your future. Every instructor is chosen for their passion for their career, love for teaching and ideas for an enjoyable learning experience. This program offers the opportunity to explore your interests in a fun environment, which means **no tests, no homework and no stress!**
